It's been called "Camaro Hair," "The Kentucky Waterfall," "Hockey Hair," "The MacGyver," and "The Joe Dirt," but most people know it as the Mullet, and it may be the most talked about and controversial hairstyle of all time. In its glory days in the 1970s and 80s, it was worn with pride across America and the globe, from glam rocker David Bowie to TV matriarch Florence Henderson (who sported a Femullet—female mullet—on The Brady Bunch). And, of course, it remains the unofficial hairstyle of hockey players everywhere. This humorous pictorial celebration of the Mullet through the years will make those who love the style proud...and provide some ammunition to those who would like to see it disappear forever. It's as funny, terrifying, and mystifying as the hairstyle itself.

About the Author Alan Henderson is a writer and humorist with a fondness for the icons of the American heartland,

from college football and stock car racing to blue jeans and, of course, mullets.
