David Kavanagh : The Little Book of Suicide: 77 Reasons to Kill Yourself. In Verse. before purchasing it in order to gage whether or not it would be worth my time, and all praised The Little Book of Suicide: 77 Reasons to Kill Yourself. In Verse.:

0 of 0 people found the following review helpful. Perfect titleBy adictI bought this for my brother in law / former best

friend for Christmas. It has yet to have its intended effect, but I have enjoyed his tearful phone calls at 2AM. I'm assuming that if you are even looking at this book you are a slightly twisted individual. Enjoy this book for the joke that it is. 2 of 2 people found the following review helpful. Be a bit more open-minded please

By Donnett Chevannes
The majority of reviews pertaining to this book only state how offended they are by the existence of this book, and I wouldn't be surprised if the majority of the reviewers haven't read it. The reviews are justified for the most part; if the reviewers' stories are true, then it's only reasonable that suicide would be a touchy and personal subject. However, I bet many are ignorant on the author's position. "I decided to have a poke at suicide, make fun of it, as a way of getting even with it. It took my brother's life and I have never forgiven it... The poems are meant to be entertaining, even amusing. But they are underscored by the reality of what suicide is really like to those left behind" said David Kavanagh himself. Kavanagh has dealt with the suicide of his brother for the past 20 years; I understand how something like that can be a burden to one's life, and I respect his choice to try and fight back what the concept of suicide has done to his life. If you disagree with his way of dealing with it, then it's your own opinion. Just please, please don't be closed-minded on this issue.

By Esperanza
The author of this book obviously never lost a beloved family member or dear friend to suicide. The insensitivity of this book's author and publisher is appalling! Suicide is not in the least bit funny nor is it a topic to be taken lightly. .com would be wise to remove this poor excuse for a book from its site. At the very least, all proceeds from such a book should be donated to the prevention of suicide...not its promotion.

From the death of a distraught puppy owner, to the demise of a depressed cat lover, this collection of short poems shines a comic light on the dark subject of suicide in all its randomness and variety, its tragedy and its sometimes accidental farce...
