Liz Climo : The Little World of Liz Climo 2017 Day-to-Day Calendar before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Little World of Liz Climo 2017 Day-to-Day Calendar:

8 of 9 people found the following review helpful. UnBEARably cute. Must have for PUNters, who won't find OTTER book as cute as this one. By MichelAs I said in the review to her newest book, Climo's comics combine the sheer impossible cuteness of her drawing with wonderful jokes and PUNbelievable puns. Since her "little world" is about animals behaving like people, it's wonderful to see how she manages to think through what this could imply, given each animal's traits - such as a shark who befriends an otter but can't invite him to come over his house because "I can't breathe under water and your parents keep trying to eat me." Most are light hearted, but she does not avoid joking about shrimps about to be eaten by huge whales, a pig apparently about to be served with salad (which he himself was eating) or suicidal lemmings. I also love how some of the friendships and relationships are inherently impossible, such as the rat who apparently is married to a snake or the above mentioned shark and otter. And many, many are about nothing else than pure cute! She also seem sto do some good research to include several different animals, and the way she draws them is something to be admired for itself. Her comics feature animals as diverse as fennec foxes, armadillos and anteaters, which reminds me of Noah's SHark, from the Bible's ARC about Noah and his sons. Climo does publish many of her comics on her website, which could make buying her books somewhat unnecessary. But I really think her books are worth having, and serve as wonderful gifts - give the power of cute! 0 of 0 people found the following review helpful. Touching, lighthearted, and adorable By BuyAllTheThings I love Liz Climo's comics. I follow her on Instagram so prior to receiving this calendar, I was already pretty familiar with some of her characters, little jokes, etc. Turning the page to a new day/comic is the highlight of my workday mornings. My colleague loves

them too and makes me wait for her to come visit before we look at the new day's comic. My only critique is that a lot of the comics are her previously published material; so if you have one of her books or follow her on Instagram like I do, you'll see repeats. 4 of 4 people found the following review helpful. **Wonderfully Whimsical!** By TWA
splendiferous collection of cute and funny cartoons featuring an assortment of anthropomorphized animals in wonderfully whimsical situations. Use this book to judge whether or not you and others around you have a sense of humor. If your name is Sarah and you haven't bought this book yet after seeing my copy then I am taking you off my list of the most awesome people to have ever likened themselves to the noble platypus.

In Liz Climo's little world, snakes and rats take selfies together, rabbits and bears share dinner (Carrots? "Man."), and sharks and otters hang out (but the otter has to pretend that the shark's about to eat him if the shark's friends show up). These and a furry and finned array of characters wryly coexist within Liz's clever and funny cartoons. She gives each of her creations an innocence and humanity that inspire delight as well as laughter. Every page of this calendar-- updated for 2017-- features one of Liz's sweet and funny cartoons depicting her animal menagerie in all manner of human situations.

About the Author Liz Climo is a character artist for The Simpsons TV series and has worked on The Lebrons and Seth Macfarlane's *Cavalcade of Cartoon Comedy*. She also the author of *Le Petit Monde de Liz*, a comic collection published in France as well as a forthcoming children's book. She lives in Los Angeles.
