**Robert Keegan : The Logic of God** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Logic of God:

There is an old saying that goes "there are three kinds of people in the world. Those that make things happen. Those that watch things happen, and those who don't know that the hell is happening." After reading this book, you might fall into a new category - author Robert Keegan certainly has! The Logic of God- a Divine Cosmic Joke delves into how we view the world around us by combining pop culture references with philosophy to give the reader a deeper

understanding of Consciousness and God. Using films such as The Matrix to illustrate how logic can be utilized to reach a higher plane of thinking, Keegan walks the reader through a clear and logical journey designed to enlighten anyone who wants to take that step up from self- help and see what can really be accomplished by awakening the mind. If you thought that "The Secret" was groundbreaking, - check out what the BMO in this book can do - and we don't mean Bank of Montreal!
