fun read for your commute or relaxation time.0 of 0 people found the following review helpful. The Book is always betterBy KDThis is the most hilarious and clever comedy book of all time! It's the only book worth finishing. Impossible to put down! I love and watch Curb Your Enthusiasm religiously but my favorite season is Volume 1: The Lost Episodes. From reading this book, you will learn a long lost lesson that the book is always better.0 of 0 people found the following review helpful. The LOST is the best!By CustomerI wanted add some laughter to my life before winter set in. So I started buying humor books and took a chance on this one. FANTASTIC --its beautifully written, affectionate, profane, searingly honest, and it is just blatantly-makes-me-laugh FUNNY--if it had pictures or drawings, it might have to be X-RATED! So many every-day situations (ok, sometimes exaggerated) that are related in such an outrageous, yet insanelly funny way.I've read it thru twice and picked up on little subtle humor bits the authors buried in the dialogue, and I go back and read my favorite episodes whenever I need a little boost. Thank you SO MUCH--it gives me a laugh whenever I feel I need it--this book could be cross-posted under 'self help!'. (And if the authors read this, please, please, please read the email I sent with suggestions you asked for in the book). I can hardly wait for the next edition/volume that 's supposed to be out around Christmas.

Impatient fans waiting for the next season of the HBO series Curb Your Enthusiasm (which may never come), can celebrate. The authors invite you to sit back, relax and enjoy their alternative: The LOST Episodes (Shoulda.Coulda.Woulda been) Curb Your Enthusiasm Volume 1 Assigned to nightshift work, commuting thousands of miles to and from Los Angeles each week AND working for the World's WORST Boss, the authors found a creative outlet by turning their surreal and bizarre adventures into a hilarious, side-splitting series of sitcom episodes that became the basis for this book. While sipping coffee at street side cafes in Santa Monica and driving up and down the Pacific Coast Highway in cheap rental cars, they collected enormous amounts of hysterical material. During their time deployed in LA, and after hundreds of incredibly funny experiences and conversations, numerous people suggested they write their material down and get it to a Hollywood agent, or better yet, Larry David. Read about the countless inspirations, the deceit, the broken promises and their strange-but-true adventures. The sitcom episodes in this book mimic the style of the HBO comedy series, Curb Your Enthusiasm. These Lost episodes are not so much Lost, but more accurately, Never Found. The Lost Episodes - Volume 1 is a compilation of 10 complete script-outlines and the backstory describing how each script came to be. Fresh, outrageous, offensive and addictive, The Lost Episodes will grab you from the start and keep you entertained to the very last page. You wont be able to put this one down!
