Nick Casanova : The Machiavellian's Guide to Womanizing before purchasing it in order to gage whether or not it would be worth my time, and all praised The Machiavellian's Guide to Womanizing:

1 of 1 people found the following review helpful. Cocky and Funny, DeAngelo would be proudBy Nir@dA better introduction to The Machiavellian's Guide to Womanizing is found in the afterword of the book. The afterword reads:"Normal girls are unable to resist if you exhibit a sense of humor, charm, and a minimal amount of kindness. Even if you're a brazen cad, girls can often be fooled by an act which combines equal parts self-deprecation, wit and

flattery. All you really need is the requisite nerve (or perhaps gall) to pull it off. You also want to make her feel very special--as if you don't chase every girl you fancy... jealousy, gratitude, admiration and other emotions can be manipulated to have just the effect you desire. Novice or expert, you'll undoubtedly chuckle over the most exuberantly risqué tactics you've ever heard. All is fair, as you constantly hear, in love and war."The Machiavellian's Guide to Womanizing captures what David DeAngelo coined "Cocky and Funny".These "risqué tactics" found in this book are meant for guys who are taking a non-serious approach to dating and aren't tied to any moral or social role. Are their better schools of thought on dating than The Machiavellian's Guide to Womanizing, of course! This book would appeal to guys who are already fun and social and have the courage to do and say things "normal guys" won't. I won't recommend this book to my buddy who isn't very social and has problems being cocky and funny. If this style of pick-up doesn't appeal to you skip the book as you will be out of your element. I give it 3 and a half stars.1 of 2 people found the following review helpful. Amusing.By James YanniThis book is an amusing piece of fluff; the "suggestions" it makes are certainly not very useful unless all that concerns you is getting into a woman's pants -- once -- and you don't care at all what she, or anybody else, thinks of you afterwards. Frankly, I doubt that they're all that useful even in that case; I can't imagine too many women with above-room-temperature IQs being taken in by very many of these ploys.Nonetheless, just to prove that even a blind squirrel finds a nut now and again, I will quote the one GOOD piece of advice to be found in this book: "The idea here is not to get drunk unless she does. For while plenty of drunken guys have scored with drunken women, and sober guys with sober women, and sober guys with drunken women, very few drunken guys have scored with sober women."If you read this book for a laugh, you'll find plenty of them. If you're actually looking for advice on how to get laid, look elsewhere. Also, if you're looking for something that has anything in common with Machiavelli's advice, rather than with his REPUTATION, you'll also be disappointed; Machiavelli wasn't really anywhere near as "Machiavellian" as the author of this book.0 of 0 people found the following review helpful. Four StarsBy LyleGreat book to teach you how to become a playa... don't buy if you want to find a girlfriend

A hilarious, uninhibited look at various tactics men use to seduce women. Strategies include: 16 comments that show you're a sensitive guy, sneaking into her roommate's bedroom after your girlfriend has fallen asleep, posing as a foreigner and many more. Women will find their worst suspicions confirmed!
