Melissa Dark : The Marine: An Adult Coloring Book before purchasing it in order to gage whether or not it would be worth my time, and all praised The Marine: An Adult Coloring Book:

0 of 0 people found the following review helpful. Author needs to format the book betterBy JillybeanSome of the pictures are cute. However, while this book was printed in all portrait, some of the pictures OBVIOUSLY should be printed landscape. By printing the ENTIRE book in portrait, many of the pictures are now scrunched up at the top 1/3 of the page and too small to color. It's a shame because I love this theme but I would not buy any more books by this author.

The Marine explores the exciting world of a dare devil Scuba Diver on her many adventures to the bottom of the sea. Here, you will find a lot of sea creatures just the way you will find them at the bottom of the ocean. You are also given the task of painting them to as you deem fit, and bringing life to them. There a lot of animals, from the poisonous, to

the deadly, to the cunning and even the quiet and subtle. This adult coloring book is guaranteed to get you lost!

About the AuthorMelissa Dark is a mother and a wife, and she loves to explore the sea. As a young teenage girl, I was always scared of the water but when I had to rescue my young Siberian Husky (Captain Snow) during a bad flood; I didn't think twice before jumping into the water. I found peace, calm, fun and love in the water, and I kept going deeper, even to depths that most people would dread. I bet the fishes like to have me around..."the woman in black suit."That is what they will probably call me. I have seen a lot in the waters and I have decided to show you a glimpse of my world with my artistic illustrations.
