My Dad had gotten the McManus Treasury years ago.He would read the story about a dog named Strange out loud, and laughing so hard every time .. it's a wonderful memory.I treasured the paperback books so much after he passed, and I read them over and over and over again, till they fell apart, and i still kept reading them till i started losing the order of the pages.. and knew it was time to say good by to them. The way he writes is so wonderful. I'm not one for camping, or hunting or fishing either.. but i just love his funny stories about them and other things. So happy i could find this here again~Thanks~~~)0 of 0 people found the following review helpful. Don't lend these to anyone!By L. AndersonLove this series as a backwoods woman, I have read this series more than once but still chuckle. I had a set and people wanted to borrow them as they would get started on it at our cabin then want to finish. Well, I learned

my lesson and this set is not to be borrowed. It's staying right here. Nice used set. As described by seller with fast shipping. 1 of 1 people found the following review helpful. Loved this author as a kid By Jack Dunne I bought this book during a bought of nostalgia. McManus used to write stories for Field Stream magazine - and my little brother and I would eat them up. He was funny and wrote about camping and fishing and hunting - all stuff we liked - so what was not to love? Still a good book, just not the book I remember (but that's not McManus' fault now is it?). It's a good read, and still funny in places...

For the first time, all four of Patrick F. McManus's zany books on outdoor life are available in an attractively boxed set. Contains *The Grasshopper Trap*, *A Fine and Pleasant Misery*, *Never Sniff a Gift Fish*, and *They Shoot Canoes, Don't They?*
