have never found them helpful, but this makes me feel like I'm not losing at parenting. Everyone deals with their own battles and hers happen to be hilarious! My husband read it and laughed out loud. Buy this book and know you are not alone in this crazy adventure called parenting.0 of 0 people found the following review helpful. AmazingBy ErinAbsolutely amazing book! The Naked Run is a refreshingly honest memoir about the joys and stresses of parenting small children. The author explores a wide range of topics including having your sleep hijacked, your body wrecked during childbirth, cloth diapering, the perils of bringing babies on airplanes, sitting with your kid in the emergency department, and much more.

About the AuthorKristin Fox is a mother, a writer and a physician assistant, among other things. She lives with her family in Colorado Springs, CO.
