but generally he is just telling it like it is and finding humor in all the political crud there is out there. Lately he doesn't have to look very far, it seems to be everywhere. I tend to agree with Bill on about 95% of the things he says overall. This book is a little bit dated, as all political humor is...but it is still a great book. Maher tends to make you think a little about the things going on in this world, while injecting a little humor into the situation at hand. I would rate this higher for my personal liking, if I were allowed, but if you are just looking for a good, funny read, then here you go.<sup>2</sup> of 2 people found the following review helpful. Bill Maher is always a favorite of mine By Stephen J. Dentl am an avid fan of Bill Maher, so my review is going to admittedly be somewhat biased. There are always some hilarious observations in compilations of Maher that will find you laughing out loud while also realizing either a sad truth about our society or coming to grips that you've never thought of these issues in much depth before. Maher's bitter satiric style is certainly not for all and most certainly skews more liberally. However, this set of New Rules doesn't really pile on the GOP as much as his other books have done. They are more commentaries of a general nature. If you are a weekly watcher of his show, you will find yourself remembering many of these rules and enjoy the stroll down memory lane. The highlights are most definitely the longer, more developed essays on major topics that are worth rereading and having copies of to send to your friends as Maher makes very compelling arguments in that last segment of his show before signing off. Not Maher's greatest work, but something Maher fans like myself will definitely enjoy reading and highlighting.<sup>3</sup> of 3 people found the following review helpful. Funny AND informative. By M. Fobes A non-nonsense, fact oozing, comical book about how Bill Maher sees not just our country's politics, but indeed the details (big and small) of the entire world. It's a great read, whether you're looking for something to wet your liberal willy or just looking for something funny to read (1 of only 2 books to ever make me laugh), this book is what you're looking for. Although, I don't think conservatives will enjoy this: I don't think anyone enjoys having their belief's/attitude's shortcomings revealed to them in the broad daylight of reasonable logic.

From the New York Times bestselling author and host of HBO's Real Time, Bill Maher's latest collection of political riffs and savagely funny suggestions for preserving sanity in an insane world. New Rule: The next Republican Convention must be held in a giant closet. Every week there's a new gay Republican outed. I have a feeling that "big tent" they're always talking about is in their pants. There are so many Republicans in the closet, their symbol shouldn't be an elephant; it should be a moth. New Rule: If one of your news organization's headlines is about who got kicked off Dancing with the Stars last night, you're no longer a news organization. Sort of like, if you were on Dancing with the Stars last night, you're no longer a star. Media, celebrity, Democrats, Republicans, religion, children, marine life, electronics, that couple making out in the next booth—when it comes to lighting up his targets, Bill Maher is an equal-opportunity destroyer. The New New Rules offers Maher's new and best-loved observations about the world around us, along with some modest tips for its improvement. Because wouldn't life be a little better if the inside of the office microwave didn't look like a Jackson Pollock painting, or if fathers stopped signing up their nine-year-olds to win free hunting trips? Scathingly funny and relentlessly unafraid of sensitive topics, Maher's hilarious brand of realism is more welcome and necessary than ever. So sit back, read on, and enjoy. You may not agree with all his views, but one thing's for certain: If you're listening, you're laughing.

"One of the establishment's most entertaining critics."—The New York Times "Pundit Bill Maher courts controversy, you say? He calls it telling the truth."—Entertainment Weekly About the Author Bill Maher is the host of HBO's Real Time and hosted Comedy Central's Politically Incorrect for ten years. He has created nine stand-up comedy specials, and garnered twenty-six Emmy nominations thus far. In 2008, Maher produced Religulous, the seventh highest grossing documentary in history.
