This satirical guide to the legal profession, first published in the 90s, was reviewed by The Times as 'one of the most irreverent, funny and perceptive books about the legal profession ever published.' Nine years later, revised and updated, it still retains all its freshness and bite, and is essential reading for clients, lawyers themselves, and anyone considering a career in the law. Over 15,000 copies of this cult book have been sold in the UK, Australia, New Zealand, South Africa and beyond. The back of the book also includes a catalogue of legal gifts, including humorous prints, t-shirts, paperweights and coffee mugs.
