Those were the days....By Saralee EtterA very funny book, and pretty useful for some basic business etiquette rules.It's also entertaining to look back at the 1980s. For women who are looking for a way to politely tell a man that they'll never date him, they suggest a gentler alternative: "Sure. When the Dow-Jones average hits 3,000."Today it's hard to believe that a Dow-Jones average of 3,000 was considered an improbably huge number, when now it looks tiny. Those were the days!Read it for the big shoulder pads, the funny comments that are still true, and for the insight into another era.0 of 1 people found the following review helpful. Funny and trueBy bryan kendallExcellent, polite customer service and very speedy processing. This product received is exactly as pictured. I am pleased. Will order again from these nice people.3 of 4 people found the following review helpful. Very funny. An underrated classic!By A CustomerThe best book out of print about the what really happens between the balnace sheets!
