of the wonderful reviews and because I consider the Onion to be my best sources of "news". I won't add another long review. I will only point out that that font is very very small and the stories are jumbled together. I would suggest not actually trying to read these in any organized fashion. Rather, put the collection some place in your home, office or wherever (like the toilet or on top of the microwave) where you can glance at it for five or so minutes a day. You will have a ongoing source of entertainment for a while.0 of 0 people found the following review helpful. Your side will hurt!!By V. GodfreyWhat can I say. I have never laughed so hard and enjoyed it so much. This three book tome is side-splitting funny and so politically incorrect. This is satire at it's very best, and the writers at the onion are top notch. This book is a must-read, and a real bargain. How could you possibly pass this up??!!0 of 0 people found the following review helpful. So funnyBy LindsayHow can you lose with. Book by the Onion. Always hilariously
