Mr Jean Dawnbringer : The Path to Hades Redux (Volume 2) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Path to Hades Redux (Volume 2):

Written by a writer who is no stranger to controversy, both in the field of public life, the writing world, and in his personal life, on the island of Malta, The Path to Hades Redux will at first make you question the sanity of the characters involved in this tale, then gradually, progressively your own sanity as you begin to notice how the

characters depicted in this tale effectively pass from stages of harmless, chaotic fun into full-blown bonkers-like actions/ situational comedy. So brace yourself... partake in The Madness that is The Path to Hades Redux, and go deeper into the psyche of a motley assortment of half-crazed, half-sane, Dionysian, drug-abusing, off the hook individuals, at your own peril... The Author, Jean Dawnbringer is a former model, an actor, a poet, an essayist, and has published numerous works including his Dawnbringer, Dawnbringer : 2nd Edition, and Dawnbringer: The Spiritual Manifesto!
