Crane is Wonderful?By Linda CreeI have many of her books and love all of them to pieces. I even have one of her large teddy bears dressed in an authentic Victorian dress. If you love Victoriana and living a romantic life, you can't go wrong with Anita Louise Crane.

It's not just sandwiches and paper plates anymore! Sometimes it's not even outdoors. There's no excuse for a humdrum picnic when ideas abound for everything from the types of hampers to use, to the accessories and recipes for the menu (try Lasagna and Citrus-Almond Scones). Why not pitch a tent inside your house, then light a fire in the fireplace and roast hot dogs and marshmallows? Or, if you're in the mood for something more retro, set up a table and chairs on the lawn. Use real china, linen napkins, and silver candlesticks. Bring a teapot and a vase for the flowers. And, be sure to invite children to the playhouse for their own special meal. Whether you're dining al fresco in the woods, on the porch, in the snow, on the range, in a tree house, or on the roof, you'll find out what you need to make your outing truly

special.

From the Back Cover Try something wonderfully different for your next picnic instead of setting out a blanket and a basket full of sandwiches. These delightful ideas for theme picnics, imaginative serving suggestions, and delicious recipes will make your outings memorable. Why not enjoy a leisurely Sunday brunch on the porch and savor French toast topped with fresh berries? Or treat your neighbor to a patio tte--tte by bringing out your silver tea set and decorating the furniture with delicate white linens. It's special touches like these that turn an ordinary picnic into a splendid occasion.
