**Melcher Media : The Pop-Up Book of Celebrity Meltdowns** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Pop-Up Book of Celebrity Meltdowns:

I read a review of this book in either October or November's Esquire - I didn't even know they MADE pop-ups for adults! After reading the hilarious little tongue-in-cheek descriptions included I knew this book would make a wonderful birthday present for my best friend, a man who really DOES have everything. Since I love books that look to be children's but with adult content, I knew I had to have one for myself, too. This book is so wonderfully crafted with so much attention to detail that I found it a wonderful addition to my collection, and it's really funny as well. If you enjoy books like "Bitter With Baggage Seeks Same" or "Creepy Susie," chances are you will enjoy this one, too. By the way, he loved it! 0 of 0 people found the following review helpful. Pop-Up Book gets an A minus rating from the Lenster By Lenny C. Husen This book is a coffee table gem! It is an outstanding bithday gift for those folks you know who are raunchy and quirky and middle-aged. Extremely clever. Expensive but worth every penny. I loved the O.J. Simpson

car chase the best. The only thing I don't like about it is the cover. Michael Jackson looks horrifyingly, frighteningly creepy, which he probably does in real life, too, nevertheless, I'd rather they had put Hugh Grant or Paris Hilton on there, and left Michael off or made him much smaller than the other cover shots. But the book is a wonderful conversation piece. Fun for the whole family (but best to keep out of the hands of small children for a number of reasons). 11 of 12 people found the following review helpful. This is too funny

This is a book of hilarious caricatures that will make you laugh out loud, if you have a sense of humor, that is. There are not many fun books for adults so I treasure this all that much more. I think the Tom Cruise addition is too funny for words and Kate Moss and OJ's pages just take it over the top. I got this over the holidays but bought another as a "Get Well" gift. There is nothing that cures like laughter and this will have you rolling on the floor. If you're not into celebrity gossip, this is not for you. If however you enjoy taking a peek at the lives of the rich and infamous, get yourself a copy and have at it. Too, too funny.

This work features the celebrity meltdown moments brought to life in shocking 3D! Everyone has a bad day now and then, but when superstars fall apart in public, it's international news! Get front and centre for ten of the most spectacular crack-ups of our day and see them re-created in glorious pop-up. Watch as Janet Jackson bares all, pull the tab and Tom Cruise will leap up on Oprah's couch like an excited monkey, and enjoy Hugh Grant caught in the headlights and find out what (or who) went down in his car. This work includes antics from famous and fabulous names including Russell Crowe, Tom Cruise, Hugh Grant, Paris Hilton, Janet and Michael Jackson, Kate Moss, Winona Ryder, O.J. Simpson and Mike Tyson. Eye-poppingly funny - it'll have you in stitches.
