with cats all my life so I surely can relate. It made me laugh as I was reading and saying, "Yep, those are my cats!" Most of the book has a sarcastic tone which is pretty much the best way to describe cats. They will knock down things to get your attention, run away when you want to hug them and then sit on your lap when you need to get work done. If you love cats you will get a good giggle out of this. If you are thinking of getting a cat you might learn a few things you were not expecting. Cats have personalities and attitudes. They are not just cute and cuddly. You soon realize that they are in charge. But in the end we love them dearly. This Kindle Edition ebook was priced at \$0.00 when I got it. 4 of 4 people found the following review helpful. A satirical look at taking advice from cat behavior. By Charity "The Princess Guides to Being a Cat" by Rosie Blythe is a satirical look at how a being a princess and a cat are basically the same thing. The author takes a humorous approach using short chapters to describe common cat personality quirks and behaviors and how readers can apply these traits to their own lives. For instance, cats are confident, they don't try to impress people. Cats are relentless when chasing something they want (such as the illusive red dot), have a fierce sense of independence and cats make you earn their love and trust (it's not given away freely to just anyone). The chapter at the end of the book titled "Your Day As A Cat: Your Do-It-Yourself Workshop" is definitely meant as a joke and readers should NOT follow it to the letter by napping excessively, knocking items off tables, pouncing on people and clawing things - just sayin'! Overall, a fun little read for cat lovers. 6 of 6 people found the following review helpful. Creative and Funny. By Rebecca of Rosie Blythe has obviously been owned by a princess cat. She knows the world of cats and explains how you can channel your own inner cat too. This book is cute and funny and pretty creative. I especially loved the section on how to spend a day as a cat. Mostly you will laugh as you read this. If you have cats and know cat behavior very well this will totally amuse you. ~The Rebecca Review
