Crazy fun entertainment.By erinn glasgowI bought this for post-op recovery entertainment, something that would be different that the other coloring books geared towards adults. I love it! It's funny, and very different than standard coloring books. This one has adult mad libs, puzzles, draw your own pictures and more. It is all so funny! If you or someone you know loves punk rock music, this is a terrific gift! You need to buy this!0 of 0 people found the following review helpful. This Book Has The Same Attitude As The Music It Talks AboutBy thirtdtwinIf you like this kind of music doing the things in this book will remind you why. Punk in pictures.

A fast-paced send up of punk rock's best bands from the past and present, this fun-filled activity book allows readers to apply Siouxsie Sioux's makeup, draw Henry Rollins' tattoos, color the members of Green Day, and complete word searches.

"The latest release in ECW Press's wickedly amusing series of music-related bestsellers . . . one place where coloring outside the lines is not only forgiven, it is encouraged." —[Buzzine.com](#)
