well as Mr. Tip deal with in a daily basis. I have laughed so much while reading this book I have to put my kindle down to calm down before continuing to read. While there is a common core of ZFG we know that at the core the Queen of everydamthing cares about her family, her animals, getting rid of cancer and would totally be my bestie if I lived next door to her even though she could drink me under the table. ALL HAIL BOOM MF!!!!2 of 2 people found the following review helpful. I love her!By val bradshawI have been following the Queen for a couple years now through her face book blog. I love her!! She is foul mouthed, quick witted, she still refers to her husband of many years as sexy and HAWT. Her children (Tiplests) are her world! They are just an awesome family. She allows us to know all of them All the while protecting their identity for obvious reasons. She/They, The Tips love alloftheanimals and consider them family-through her you know the personalities of all her fur babies and they are hilarious too... especially Cisco, the African Grey parrot that has special talents of his own. She shares the good, the bad, the ugly, the sad, the dark and the funny, and she can make almost anything funny. Just when you think she has done everything, she does the most crazy thing AGAIN, this time on the beach with a megaphone!! I love them all, AND The Queens Mother!!! the only reason I gave it 4 stars and not 5 is because I follow her so closely I have already read everything in the book and I want more!!!! Great job JTT, thank you from the bottom of my heart. I can't wait for more! I

A sincere and sardonic journey through the trials and tribulations of motherhood, relationships and what it takes to be Queen.
