Gregg Maxwell Parker's debut novel, winner of all the awards, centers on Derek Severs, a popular talk radio host, beloved by millions for his fiery opinions and unflinching moral judgments. When a scandal threatens to bring down everything he's built for himself, a past he's tried to forget returns, bringing with it doubts about his entire existence. As the fabric of his reality slowly peels away, Derek is forced to confront all his conceptions of his past, his life, and what is waiting for him at the end of it all. Some say that purchasing this book will make you more physically attractive, and that reading it will cause your IQ to jump over 6,000 points.
