Roberto Ricci : The Red Harlequin Adult Fantasy Coloring Book before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Red Harlequin Adult Fantasy Coloring Book:

Based on the bestselling Red Harlequin Fantasy Series, this full colored coloring book comes with nineteen original illustrations in both color and black and white for you to either color and follow along the patterns of the colored illustration or create your own original coloring patterns. The designs are of various difficulty levels and the technique is such that you could easily spend hours coloring each single page. The book is divided in different sections highlighting the different color nations of the original book series so that each section will have one color (and its many variations) as its recurring theme. The colors (nations) are: Black Red Blue Orange Yellow Green Violet and of course, The Harlequins.
