following review helpful. A delightful, funny "must read".By JpintxI was fortunate to have the opportunity to listen to Mr. Kissner tell one of the stories from his book in person. I was so impressed by his story telling that I purchased his book to read that very weekend on a 9 hr. road trip to Dallas and back. I wanted to share Mr. Kissner's amazing writing skills with my husband so I read the first paragraph of the Foreword to him. He was hooked! By the time we reached Dallas we were half way through the book. We could not wait to start our journey home on Sunday to enjoy the rest of Mr. Kissner's wonderful stories.While we enjoyed the humor (at times we were both laughing so hard tears were streaming down our faces and we couldn't catch our breath) we also appreciated the many little lessons of life packed into this book, not to mention the appreciation of the mental processes of a small boy with ADHD. We were both sad when St. Genevieve's burned down and the book ended.My husband and I are both looking forward to Mr. Kissner's next book.In the meantime, I am spreading the joy - I have purchased 5 copies to give as Christmas gifts.This is a "must read" book. Scared HallsBy Carol CarawayFirst of all I like to say, that "The Sacred Halls of St. Disaster" is a fantastic read. I laughed so hard I almost peed my pants at some of the stories in this book. I already knew Robert Kissner is a talented speaker but I had no idea that he is such an extremely talented writer.As I was reading the hauntingly sometime hilarious and witty book, I realized that some of these stories would be great to tell my grandchildren. I believe that they would be able to comperhend some of the stories and laugh as much as I did. Ones like "Rooty" the Root Beer Cow. What a joy of imagination to share with your friends and family.I would defiantly encourage everyone to check this book out. You will be thoroughly entertained with Robert's style of writing and story telling.

The Sacred Halls of St. Disaster is a humorous look into the life of a precocious student struggling with ADHD while trying to navigate the halls of an old parochial school. Laughs abound as Timothy Larkin ponders the beautiful girl on the other side of the room, the indestructible quality of marshmallow chicks, and the bladder capacity of a bull. Beneath the silliness, however, is an insightful glimpse into the mechanism of an ADHD mind, with an aim toward developing a greater appreciation for kids who seem to operate on an alien wavelength.
