He doesn't put the book down. :)Thanks!2 of 2 people found the following review helpful. Fun to read to a group.By DD67This book would easily keep the interest of a large group of preschoolers. It is great to read when talking about the ocean, sharks, overcoming your fears, helping others and the "Sh" letter combination. Be prepared to read this many times to a preschool age child. I have read this book to many children and they all enjoy and pay attention. The illustrations are nice and the story line of the scared shark having to overcome his fears to help his friend is nice. a small sentence per page.There is teasing in this book and the shark does swim off(run-away) this may bother some people. The shark and his friend end up lost and sharkie has to become brave to help his friend who is very upset and find their way back home.If you have a child that is extremely sensitive this book will bother them. I recommend the book "Tiger is a Scaredy Cat" for a more gentle approach to talking about

fears.0 of 0 people found the following review helpful. weird illustrationsBy PennyThe story is fine - average at best, but some of the graphics are a little on the creepy side for me. For example, there's a scary troll/devilish looking thing on about the 7th page that maybe most parents wouldn't notice, but it's right at a child's eye level when you are reading it to him. There are a couple other things I noticed too.I also thought it looked like some of the graphics were inspired by Finding Nemo and not completely original.

This adorable book set in rhyme teaches children that sometimes a good friend can make it easier to overcome fears.As hard as he tries, Sharkie never seems to be able to overcome being scared of the world around him. He decides to run away. Luckily, a new friend named Lily follows Sharkie and the two play together for hours--until they find themselves lost. Can Sharkie overcome his fears, comfort Lily, and help get them home safely?
