The absolute perfect thing for any Mom that is having issues w/an older teen or young adult... so worth it!By h82go8675309The exact gift I needed at the time for my just-turned-adult-teen that also just went off to college and while a joke, it actually got the point across!!!! So, very worth it and she will use the couch for a stress squeeze "ball" actually she said!6 of 6 people found the following review helpful. Great gift item!By southerncharmThis has been a great gift for other therapists! I have purchased 3 and each person has absolutely loved it!3 of 3 people found the following review helpful. toyBy MaggieKinda disappointed with the product. I thought the little chair and therapist hourglass man would be cuter. The cards it came with are funny though!

This tongue-in-cheek Mini Kit™ appeals to self-help readers who don't take themselves too seriously. It includes a miniature sofa that doubles as a stress-reducing squeeze toy, a sand timer, and cards with affirmations. The fascinating 32-page book offers a witty glimpse into the world of psychotherapy.
