Flat out entertainingBy BethI bought this book for my stepson, however once I got it, I started paging through...then read a few pages...resulting in reading the entire book. It is now a bent and loved book and I will be buying my stepson a new one and keeping this one. Fun read and well written!! Loved it.3 of 3 people found the following review helpful. A Movie-Lover's ManifestoBy S. Michael WilsonAs a person who not only believes in bad moves, but seeks them out intentionally, it is hard to imagine that I would find

myself enjoying a book that not only claims that there is no such thing as a bad film, but that the blame for anything resembling as much rests on my shoulders. But Dr. Sarcofiguy preaches a cinematic gospel that is hard to argue with, and the majority of his reasoning is sound. His advice to all of the movie fans (like me) who find themselves nitpicking small mistakes and minor flaws in every film they see: Sit back, let go, relax a little, and most of all, stop whining! It's probably the best advice I've received in a long time. The book is broken down into chapters covering each common film-goer complaint individually. While I agreed with his defense in some chapters, like "The special effects looked fake," and disagreed with others, such as "They could've shaved off half an hour and it would've been perfect" (*cough* Magnolia! *cough*), they all not only entertained, but add a level of rationalism and humility to critical film response. That's right, Dr. Sarcofiguy loves films, and he's not just going to stand around and watch you kick them around for your own amusement! 1 of 1 people found the following review helpful. A humorous look on cinematic criticism.

". . . a frequently funny, wittily written diatribe against those who derive constant pleasure from verbal cinematic destruction. --Cool Ass Cinema.com". . . With great humor and perfect logic, the reader is taken on a trippy ride through the cinematic ether and is treated to a philosophical slap-down that will leave you on the floor laughing." --Count Gore.com "There Are No Bad Movies (Only Bad Audiences) is a testament by a true fan of cinema, and I'd suggest a must-read for anyone who wants to actually become a Film Critic one day. Easy to read and full of cinematic insights as well as a new viewpoint as to how the average movie-goer "sees" movies from usually simplistic (and not so objective) viewpoints, with detailed points as to how most of us view cinema and the storylines, cast, etc. in very personal ways!" --Ken Knight "THE MIDNIGHT SHOW~Late Night Cable TV Guy-Flicks of the 80's""Dimes' book brims with humor and passion to make a serious point: If you don't like a movie, perhaps the problem is YOU." --Cinema de Merde.com "The next time you go to a zombie movie or a sf film or something where teens get killed every ten minutes, and the guy in front of you groans that the effects suck, take this book and hit him over the head with it, to shut him up. Then give him the book to read so he'll smarten up. " --The Outsider Writer's
