Leonard Stegmann : There Are Places I Remember before purchasing it in order to gage whether or not it would be worth my time, and all praised There Are Places I Remember:

0 of 1 people found the following review helpful. Don't waste your money.By Larry O.This is apparently a self-published, poorly constructed, poorly edited book. I would have put it down after the first two pages, but went a little further just to give the author the benefit of my doubt, but that time was poorly spent. It apparently is an unorganized collection of what the author thought to be interesting and/or funny situations in his life. Perhaps they were to him, but

I doubt they will be to anyone else. Don't waste your money on this. 1 of 2 people found the following review helpful.
Another great Stegmann book! By LG Have been working my way through Leonard Stegmann's books over the past year or so. Very much enjoy his perspective on life/love/liberty! Enjoyed this book on looking back and his sometimes curmudgeonly remembrances!

The follow-up to Leonard Stegmann's nostalgic "People and Things That Went Before" once again takes you back to a time of bottle rockets and snow days, Beatles albums and Kool-Aid stands. Warm, funny and sometimes sad, "There Are Places I Remember" will stir memories of those not-so-long ago-days that you once believed would never end.
