Move over Harry Potter!  
Everyone has a celebrity or musician that they can't understand. These performers have had megahits, and are super famous, but you just don't understand why. Maybe to you their music isn't that good, or their personality hits you like nails on a chalkboard. This book, written by as many authors as there are chapters, is a nice collection of essays on this topic. I particularly like the one on Streisand, who always got under my skin. There is a lot of humor here, and if there is a celebrity or two that you hate covered, get the book. Even if there are people that you love that are on the list, get the book and defend their honor. It's nice that we still live in a country that gives all of us the right to say, "I don't care how famous you are, I think you suck." Maybe we can get a sequel on movies, TV shows, actors, sports figures. The possibilities are endless.

Everyone has that one legendary musician that they just don't "get." That celebrated genius who – for whatever reason – just leaves you cold. For some, it's Bob Dylan. For others, it's the Boss, Pearl Jam, U2, even The Beatles. *THERE, I SAID IT* is a collection of hilarious, personal, thought-provoking essays by acclaimed writers - screenwriters, novelists, musicians, actors, producers, directors, Saturday Night Live contributors, even a former Obama staffer – who have a confession to make, each about a different musical icon: "I just don't get it." Other subjects include: The Rolling Stones, U2, Eric Clapton, Paul McCartney, John Lennon, Steely Dan, Wolfgang Amadeus Mozart, The Who, James Taylor, Billy Joel, Carole King, John Coltrane, Leonard Cohen, Led Zeppelin, Nirvana, Richard Wagner, Frank Sinatra, Pearl Jam, Stevie Wonder, The Smiths, Counting Crows, Al Green, Barbra Streisand, Bob Marley, Macklemore, and The Grateful Dead.
